

# The CAS Scoring App – A Tutorial (Ver 5.0)

Click to progress through tutorial at your own speed.

PowerPoint is not automatic.

# The CAS Scoring App

- A scoring app for Cowboy Action matches
- Can be downloaded from the Apple App Store
- It's FREE! (All parts!)
- Runs on iPad and iPhone  
(with iOS 10.3 and higher)

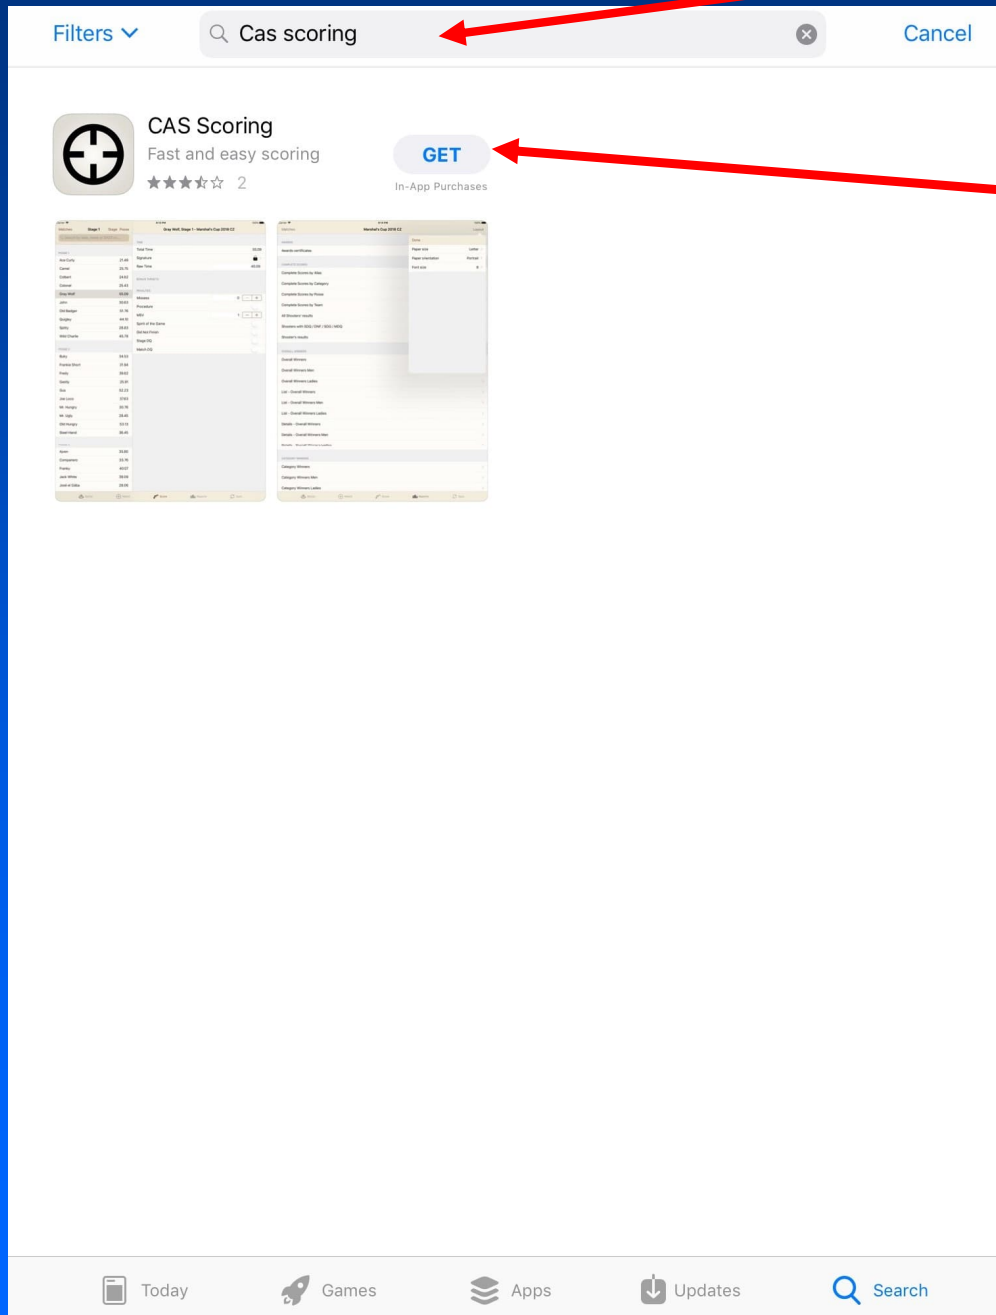

# Suggestions for using the Tutorial

- Search for “CAS Scoring” in the Apple App Store.
- Download the app to your iPad or iPhone. (It’s FREE!)
- Follow along on your device as we work through the tutorial.

You will notice that for the tutorial, I have added a few shooters from Mayhem on the Mountain 2019 for an additional demo match.

# Downloading the App

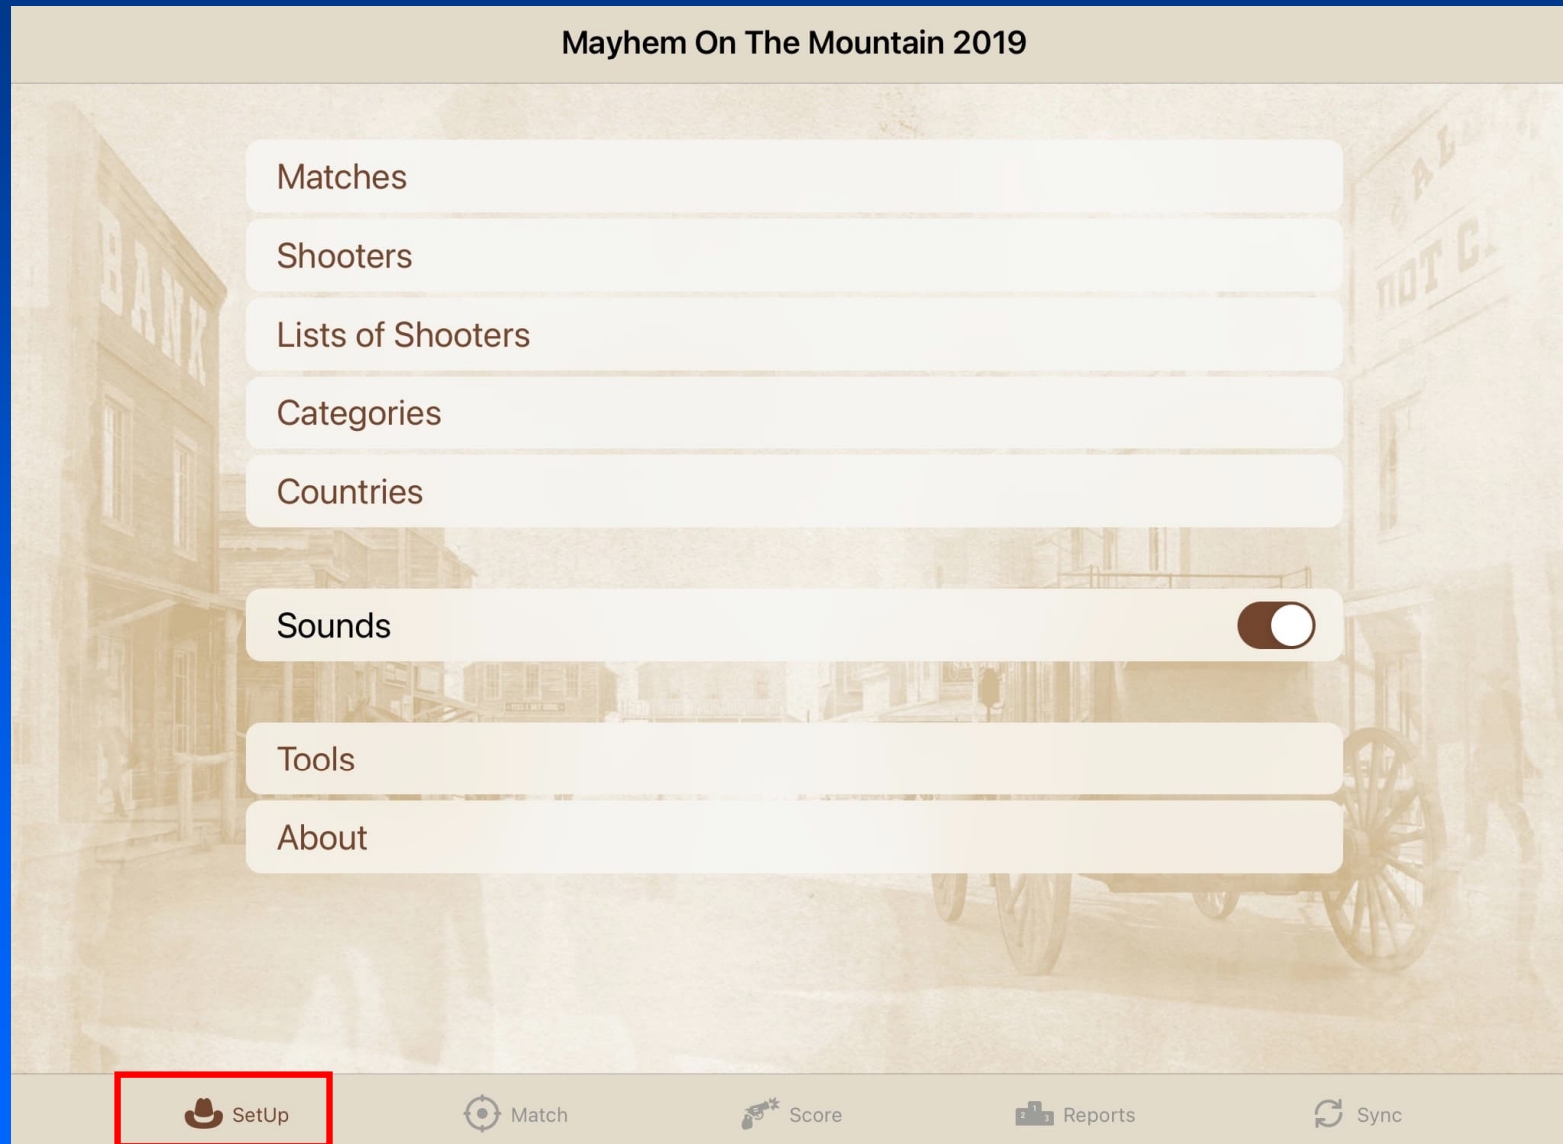

Search Apple App Store for CAS Scoring.

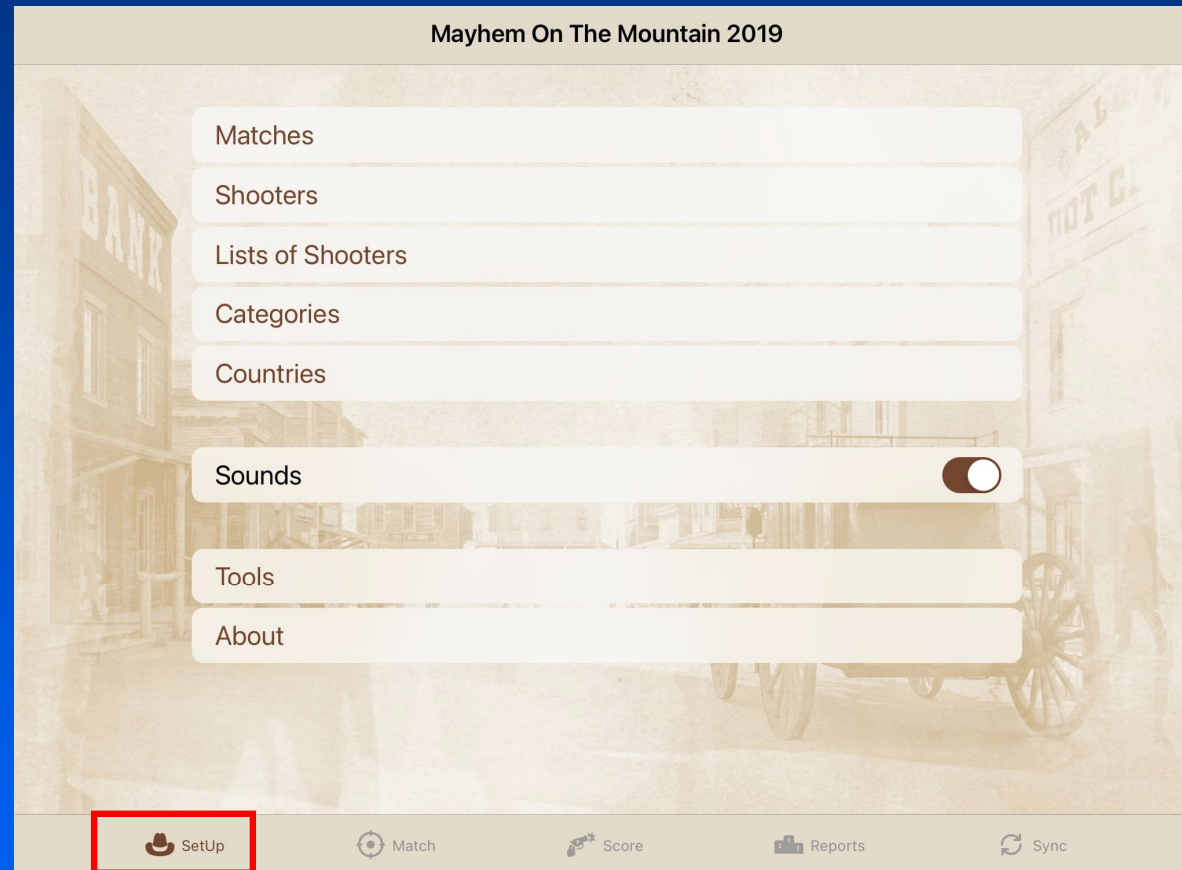

Download app to your device.

When download is complete, open app on your device.

# CAS Scoring opens on the SetUp screen

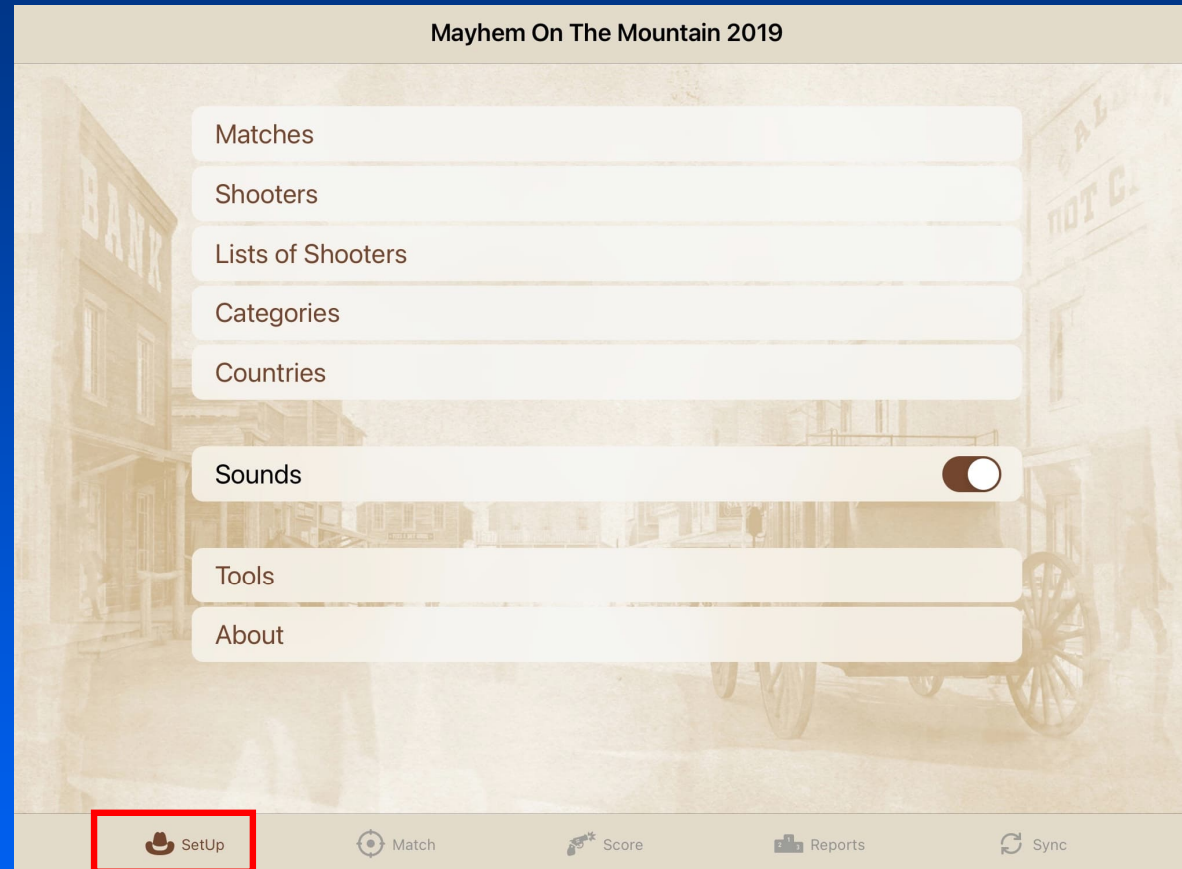

# The SetUp screen

Much of the information entered here is used from match to match.

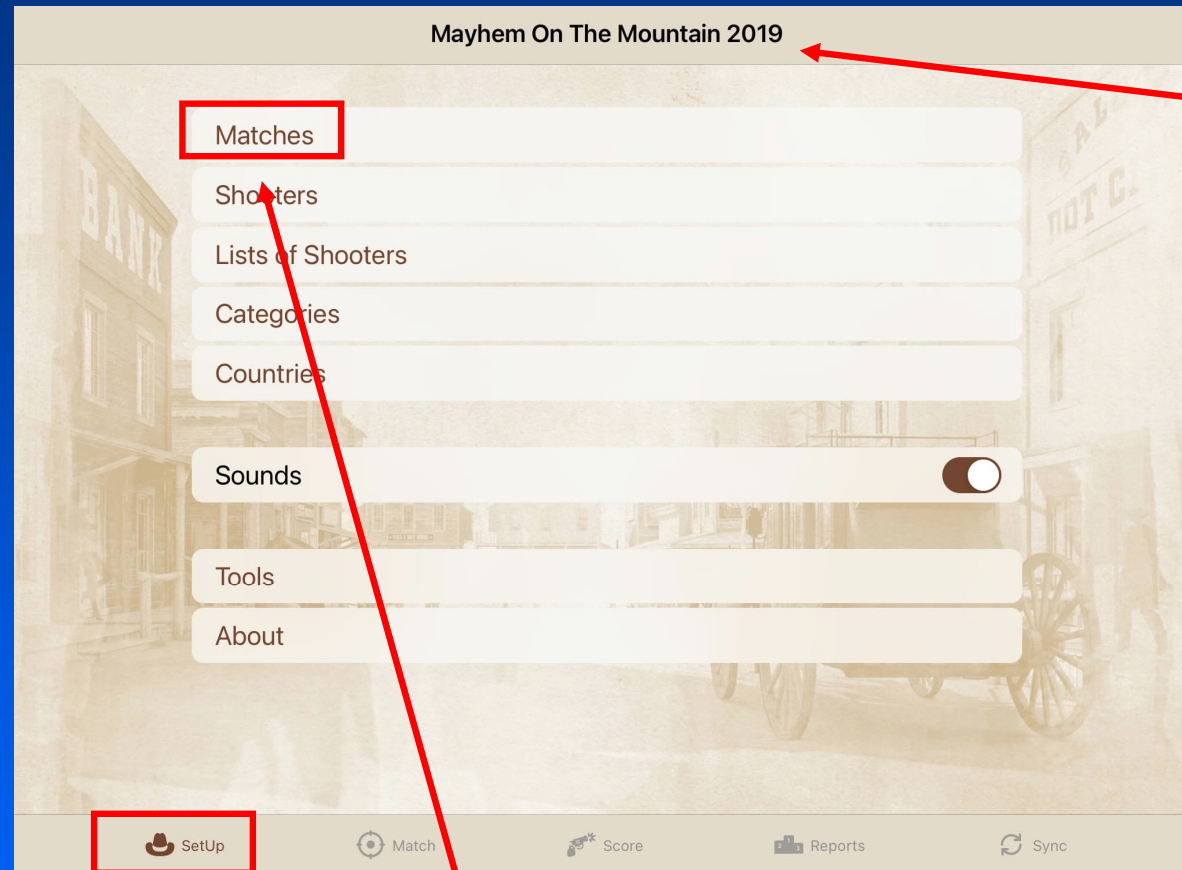

# The SetUp screen

Some of the information is already entered!  
Let's look at the parts of the SetUp screen,  
then we will see how the parts work.

# The Matches database

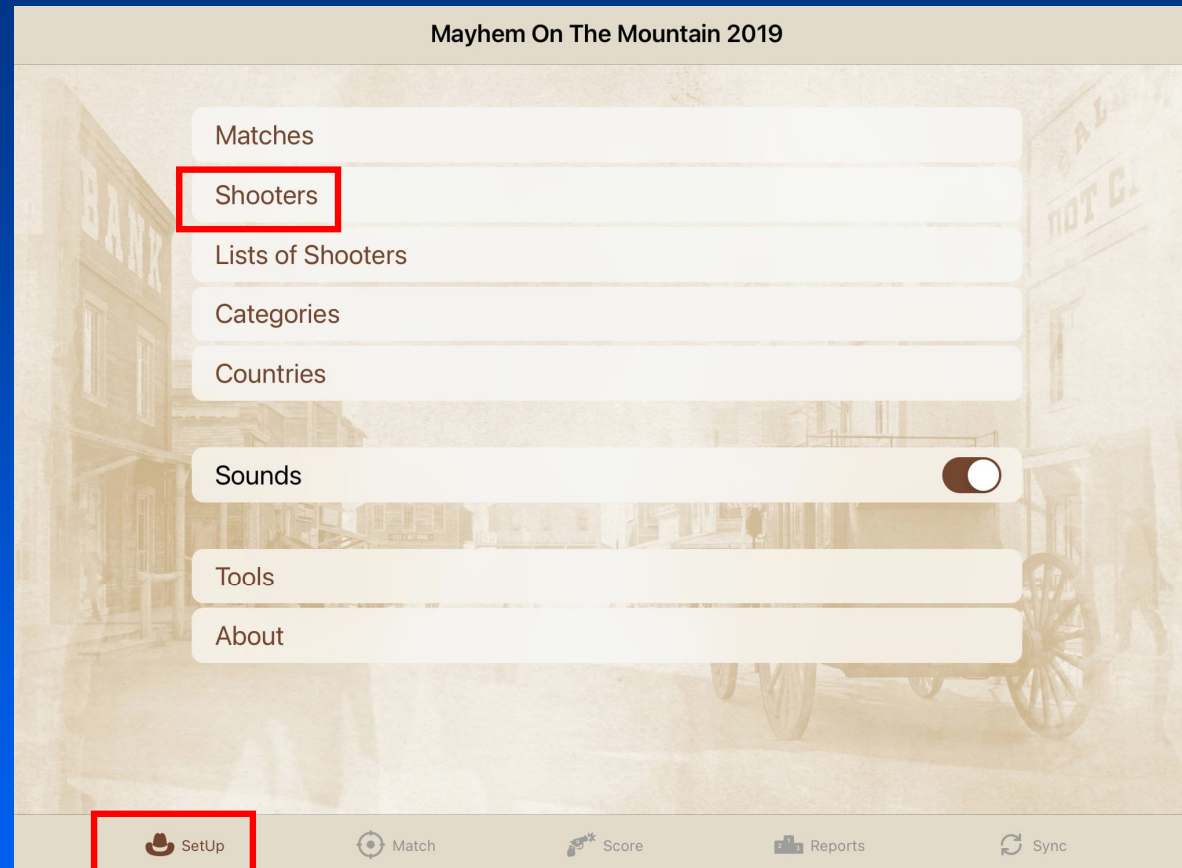

The current match appears at the top of the screen.

This is where you create new matches.  
(Or return to previous matches.)

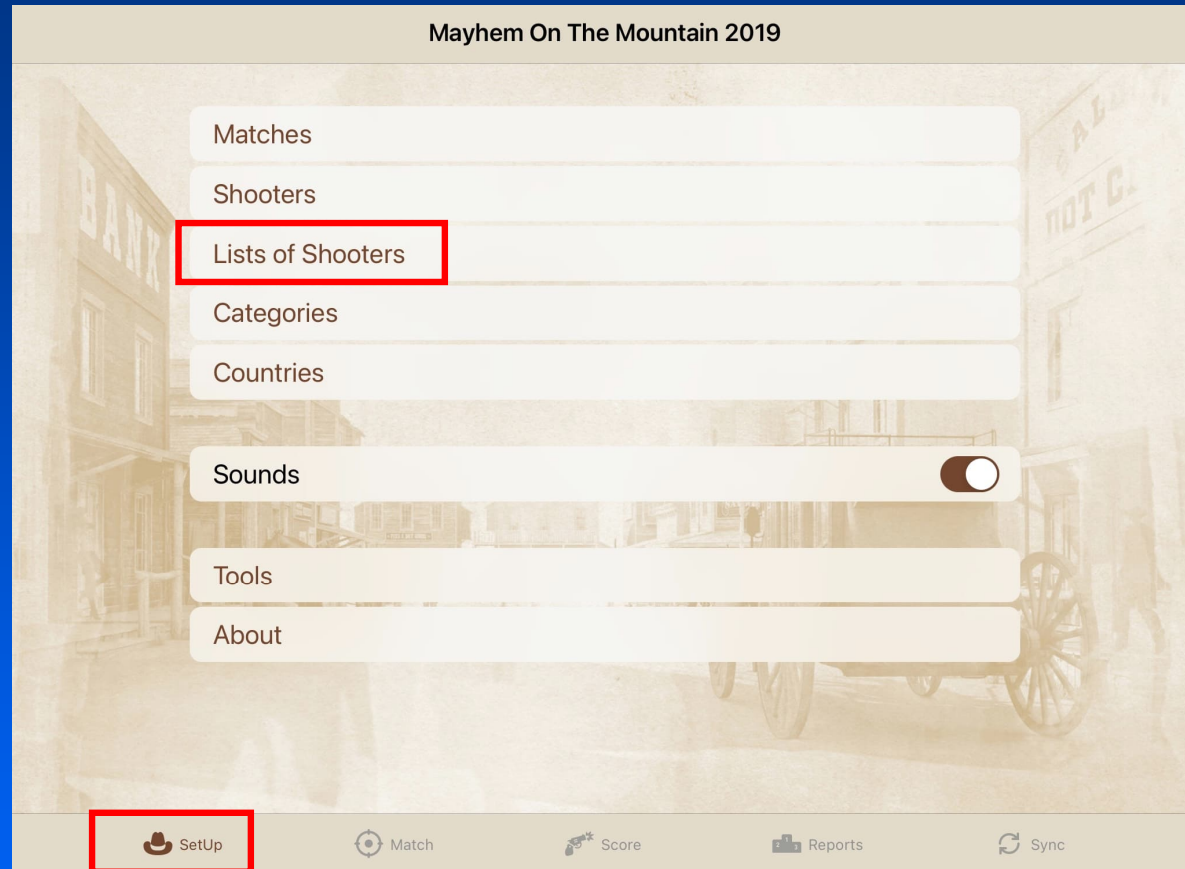

# The Shooters database

A shooter must be added to the Shooters database before being added to a match.

# Lists of Shooters

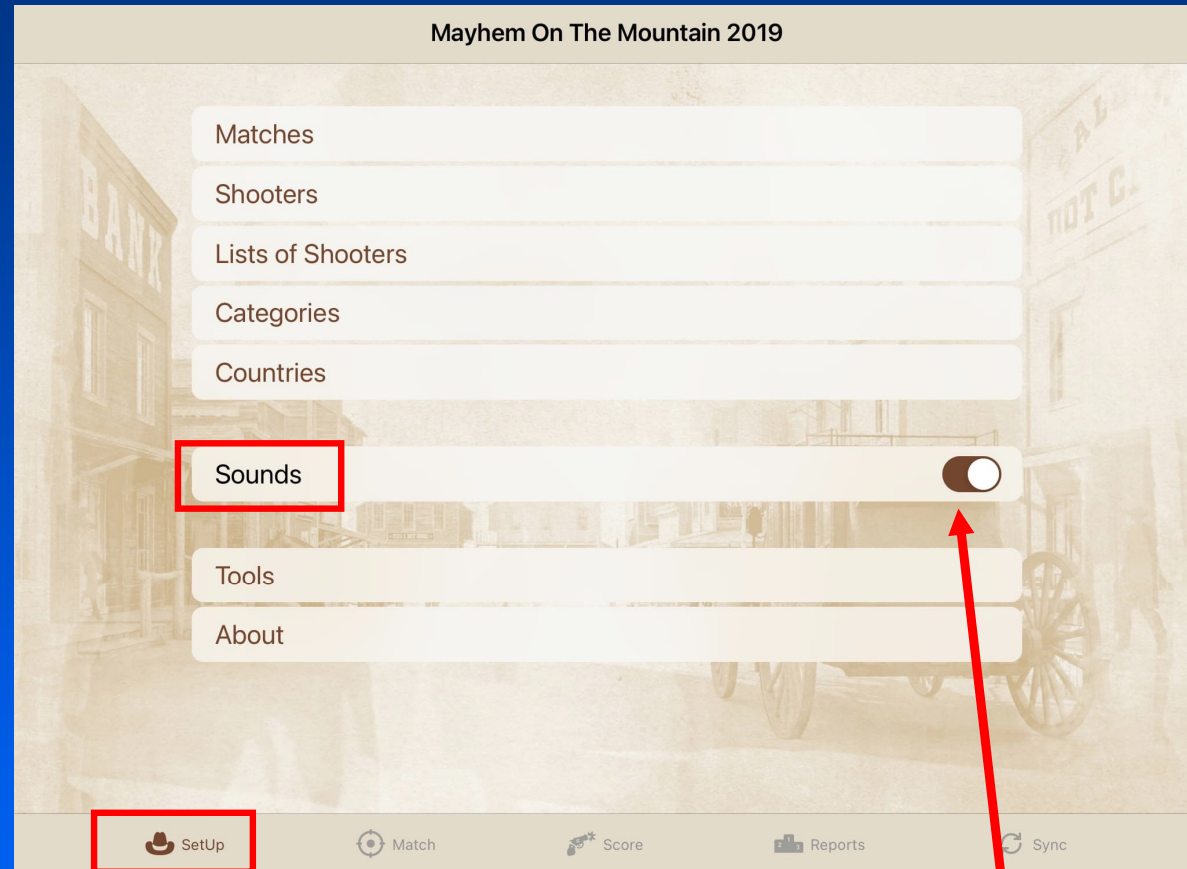

Lists (now called groups) of shooters may be created for use with similar matches or club lists.

# Categories and Countries

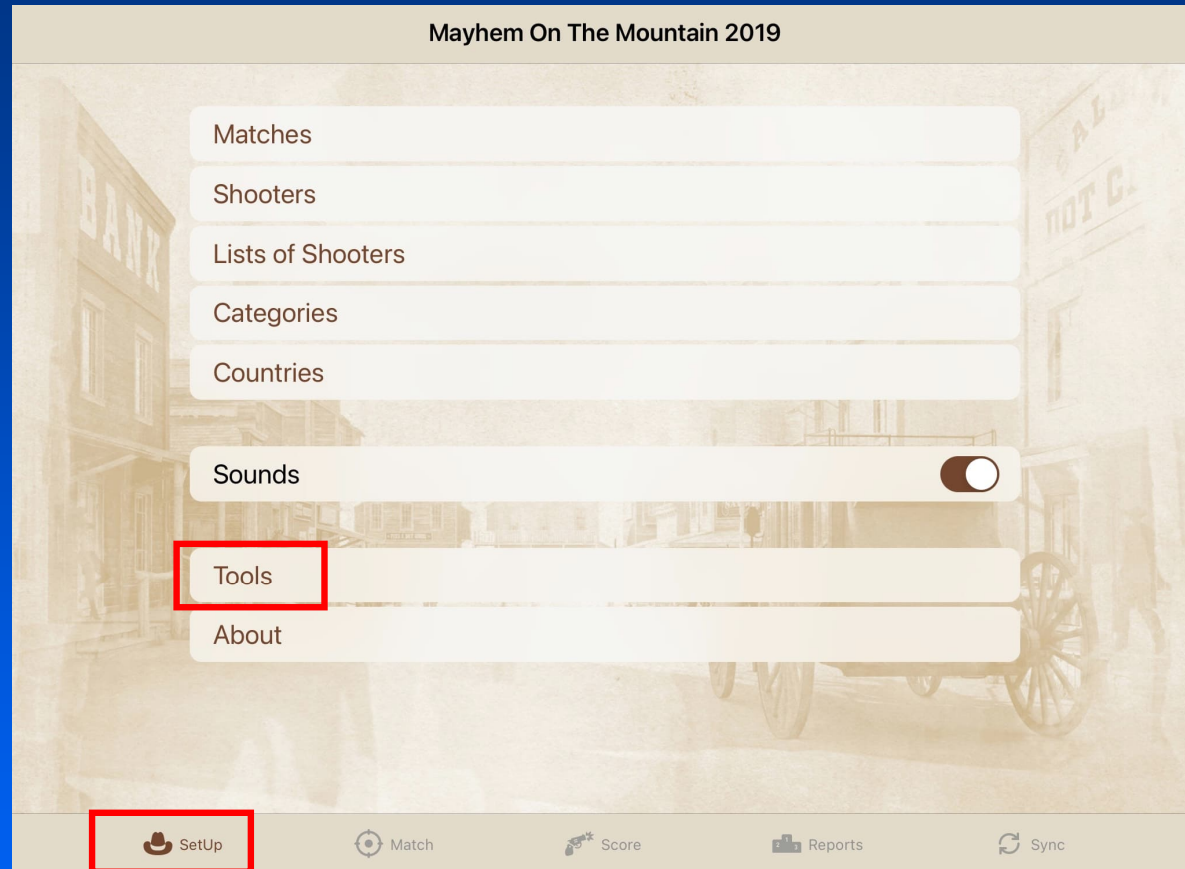

Categories and Countries have already been entered! More about these later.

# Sounds

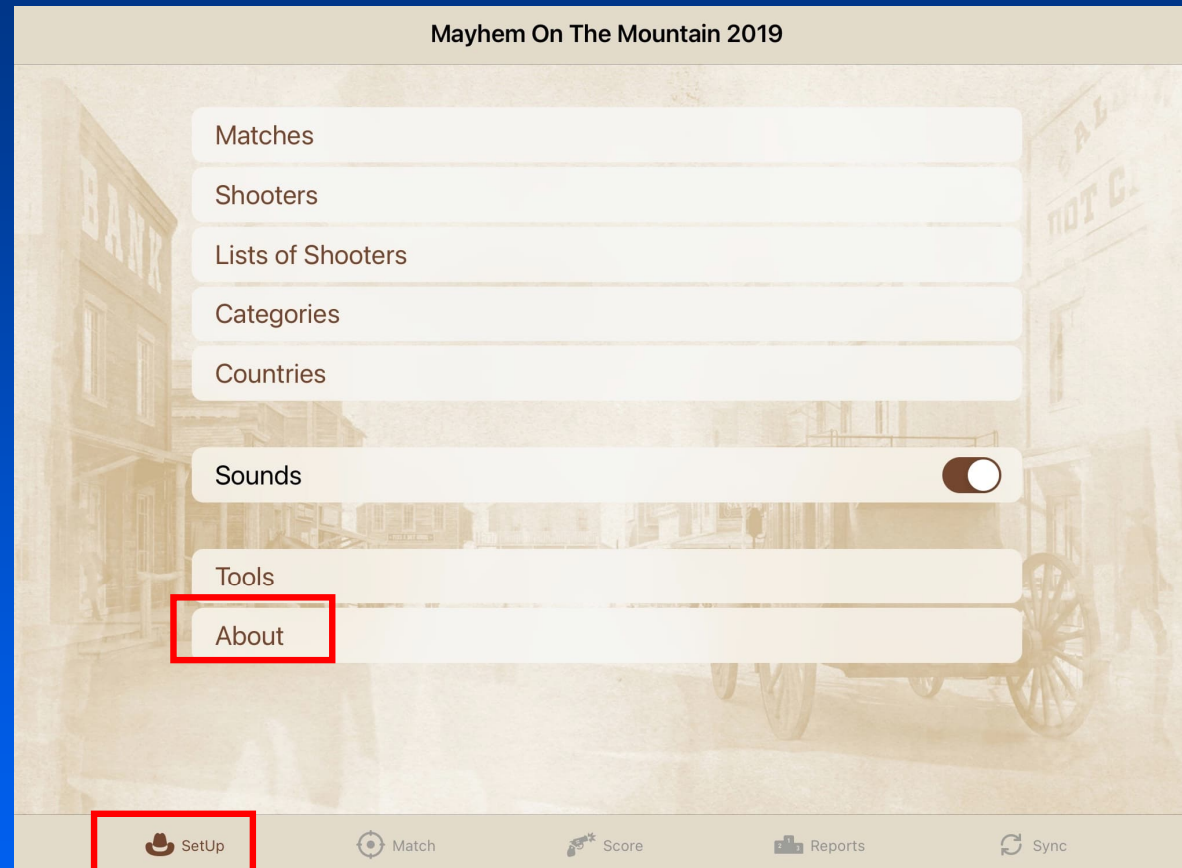

Sounds – your option. On or off.

# Tools

Tools includes Score Tools, Shooters and Categories Tools and Reset.

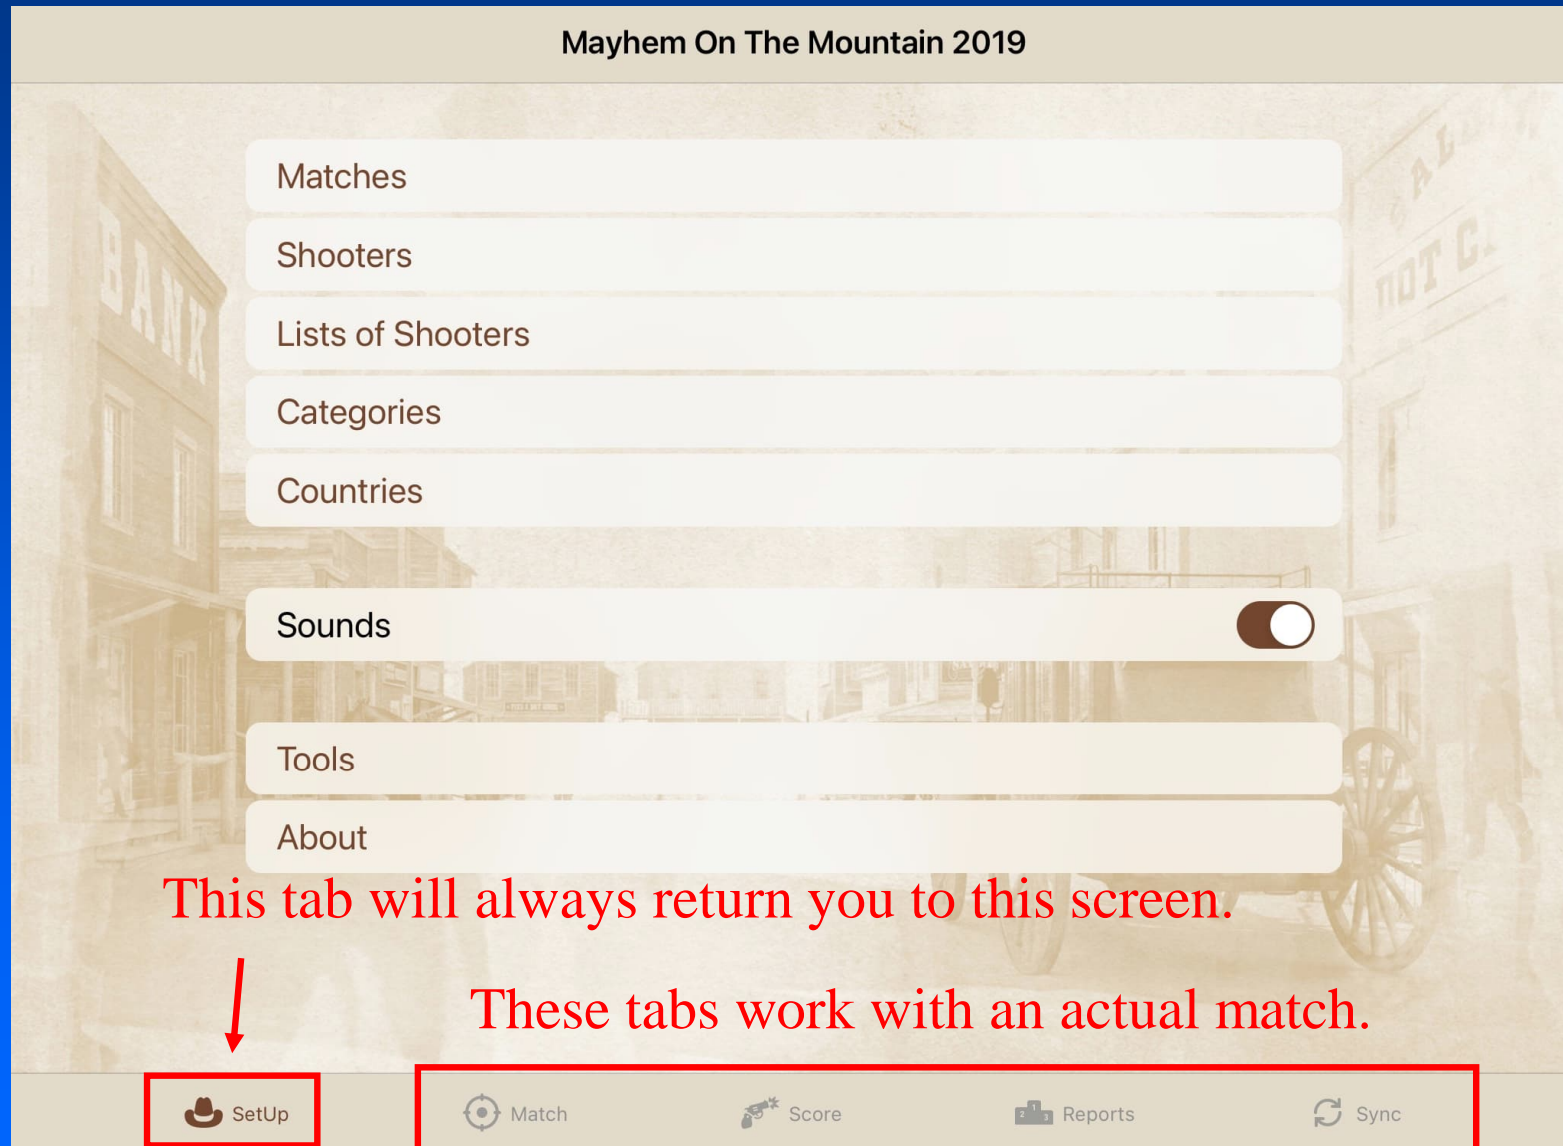

# About

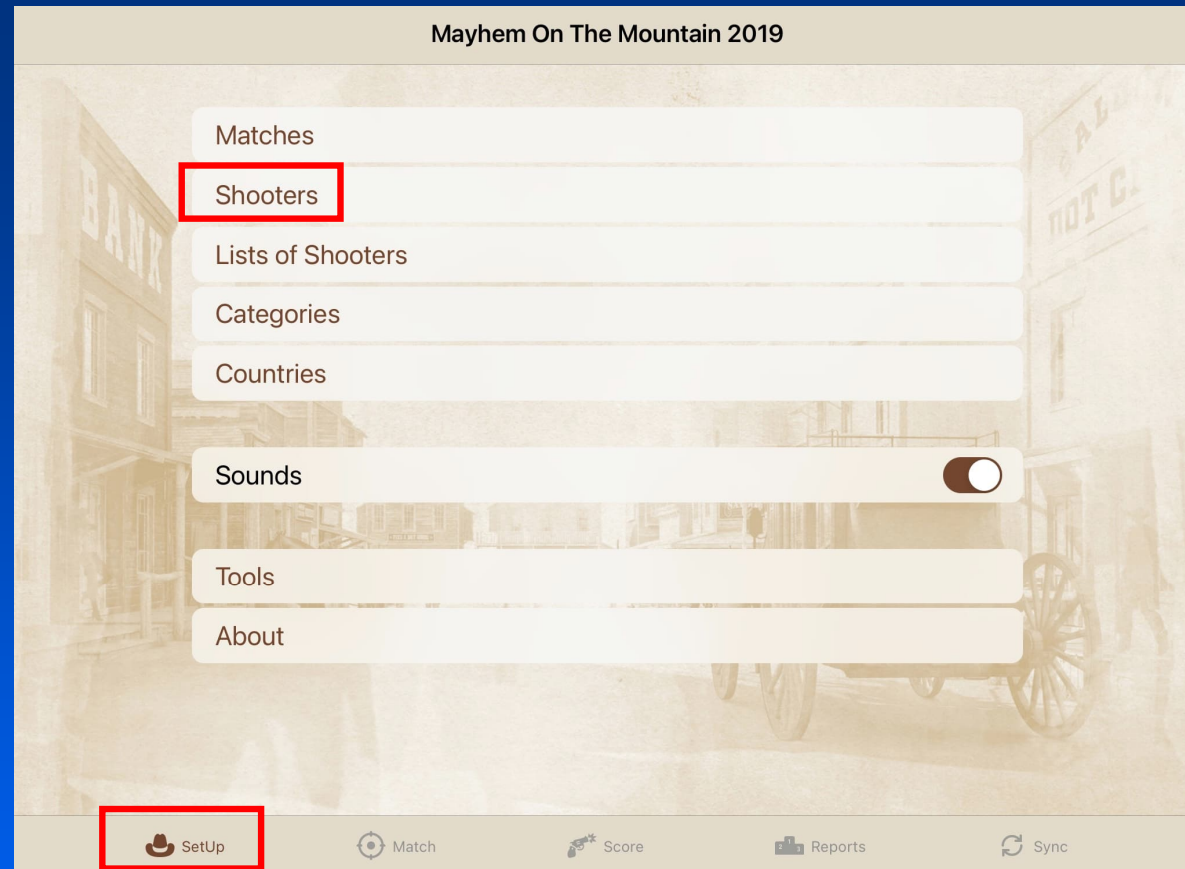

Information about the app, including version.

(Clicking on Help and Support will take you to the website where you can download written documentation.)

# Additional Tabs on Setup Screen

# The Shooters database

Since shooters must be added to the Shooters database before being added to a match, this is the logical place to start.

# Shooters database

The screenshot shows the 'Shooters' app interface. On the left is a list of shooters with their names and categories. On the right is a form for adding a new shooter. The form fields are: Alias (Roy Sackett), SASS Number (103849), First Name (Phyl), Last Name (Brinkley), and a 'Lady' toggle switch. Below these is a section for 'DEFAULT CATEGORY IN CATEGORY SET' with several options: General, Cowboy Action Shooting, Wild Bunch, Plainsman, and Speed Guns, each with a dropdown menu. At the bottom, there is a navigation bar with icons for 'SetUp', 'Match', 'Score', 'Reports', and 'Sync'. The 'SetUp' icon is highlighted with a red box.

# Posse Setup

The screenshot shows the 'Match definition' screen for a match titled 'Mayhem On The Mountain 2019'. The interface is divided into two main sections: 'SHOOTERS AND POSSES' on the left and 'MATCH INFORMATION' on the right. The 'SHOOTERS AND POSSES' section lists 'Shooters' (11), 'Wildcard shooters' (1), 'Posse 1' (4), and 'Posse 2' (6). Below this list are buttons for 'Add new Posse' and 'Add Wildcard group'. The 'MATCH INFORMATION' section includes fields for 'Name' (Mayhem On The Mountain 2019), 'Date Start' (Oct 4, 2019), 'Date End' (Oct 5, 2019), 'Signature under Score' (toggle off), 'Signature PIN' (empty field), 'Match Type' (Main Match), 'Scoring Type' (Time), 'Use General Category Set' (toggle off), and 'Randomize the posse order' (toggle off). A note at the bottom states: 'Category Set is determined by the Match Type or the General Set is used when the switch is on.' At the bottom of the screen is a navigation bar with icons for 'SetUp', 'Match', 'Score', 'Reports', and 'Sync'. The 'Match' icon is highlighted with a red box. Red arrows point from the text on the right to the 'Add new Posse' button, the 'Add Wildcard group' button, and the 'Match' icon.

Go ahead and add as many new posses as you will need for the match. (You may choose to wait until all shooters are added to match to determine number of posses.)

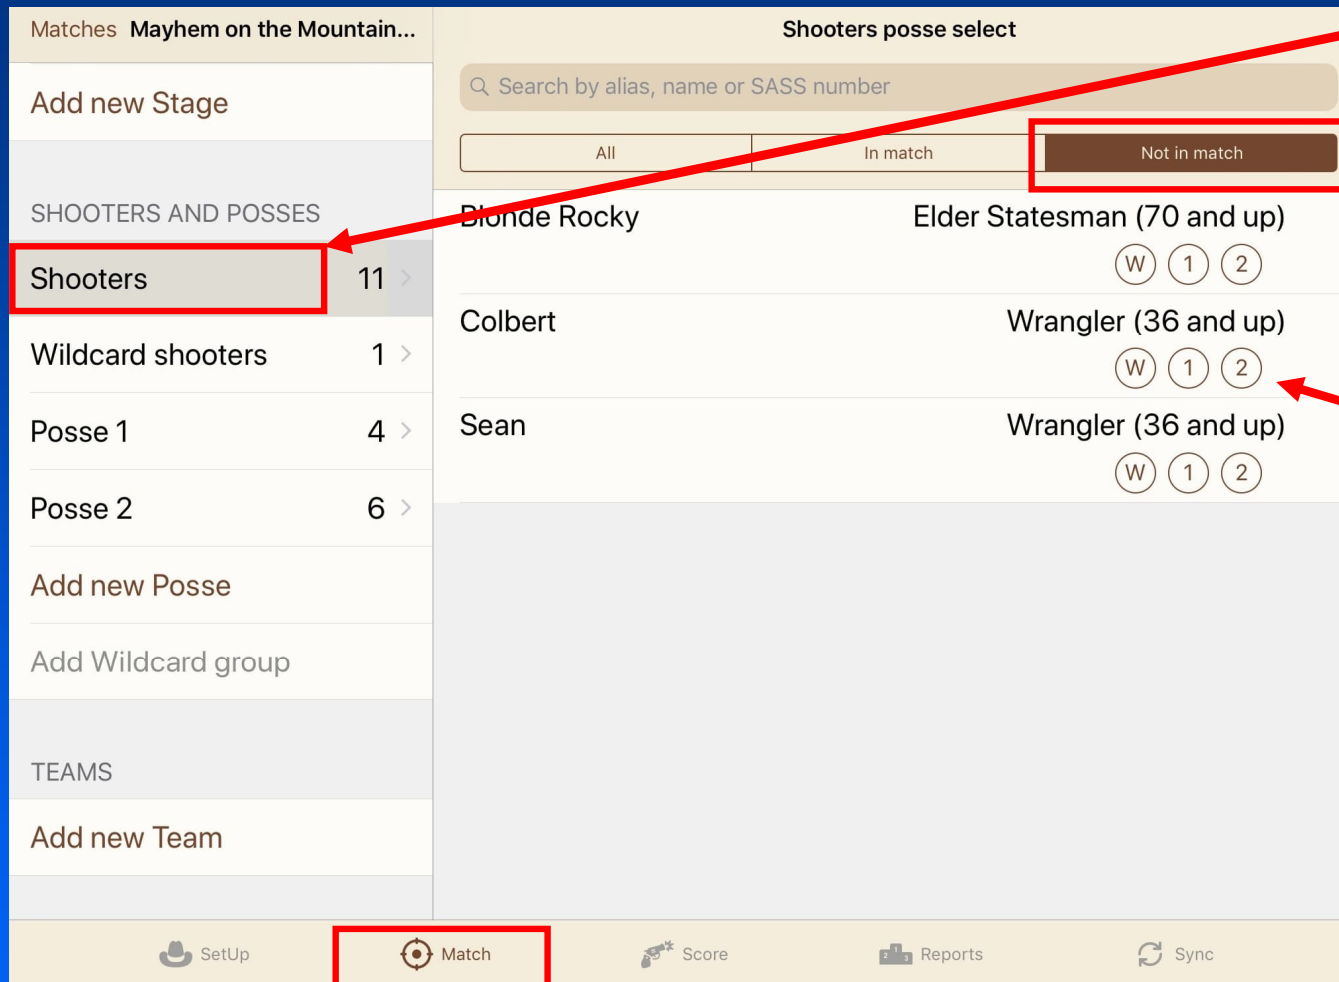

Adding a Wildcard group is a good idea for shooters who “shoot through” as it will show up on all devices.  
(Maximum of 1 Wildcard group per match.)

Teams are not required and seldom used.

For the demo we will use two posses and a wildcard posse.

# Assigning shooters to a Posse

There are a couple ways to add shooters to posses.

Click on Shooters.

Click on Not in match. This will give you a list of all shooters in the database.

Then simply tap on the circle corresponding to the posse you wish to select.

To change posse, just tap on a different circle!

To remove a shooter from the match, tap on the filled circle.

(For our purposes we are using two posses and a wildcard posse.)

# Match setup is complete!

- So far all set up has been done on the Master Device.
- Shooters have been added to shooters database.
- Match and stages have been defined.
- Posses have been created.
- Shooters have been assigned to posses.
- Posse marshals have been designated.

Now we are ready to sync information to the individual posse scoring devices!

## Note:

Before syncing other devices to the Master Device, you may wish to print the Shooters List.

(Instructions for printing Shooters List are provided later in this tutorial.)

At this point, it serves as a good worksheet to check SASS numbers, posse assignments, categories and posse marshals and deputies.

# Synchronization

- Data is synchronized directly between devices.
- You DO NOT have to be connected to the internet!
- Check that WiFi and Bluetooth on all devices are enabled.
- The device on which the match and shooters are defined is the Master device.
- Only on the Master device is it possible to edit match definition and shooters.

# Pre-Match Reports

The Shooters List is very useful as a worksheet.

You can check for missing SASS numbers, check categories and assign posses and posse marshals. Then update the master device.

Once all information is as desired, the Shooters List may be printed and posted so shooters can check their posse number.

**Mayhem On The Mountain 2019 (10/4/19 - 10/5/19): Shooters list**

When you choose Shooters List, you will see there are several shooters lists available.

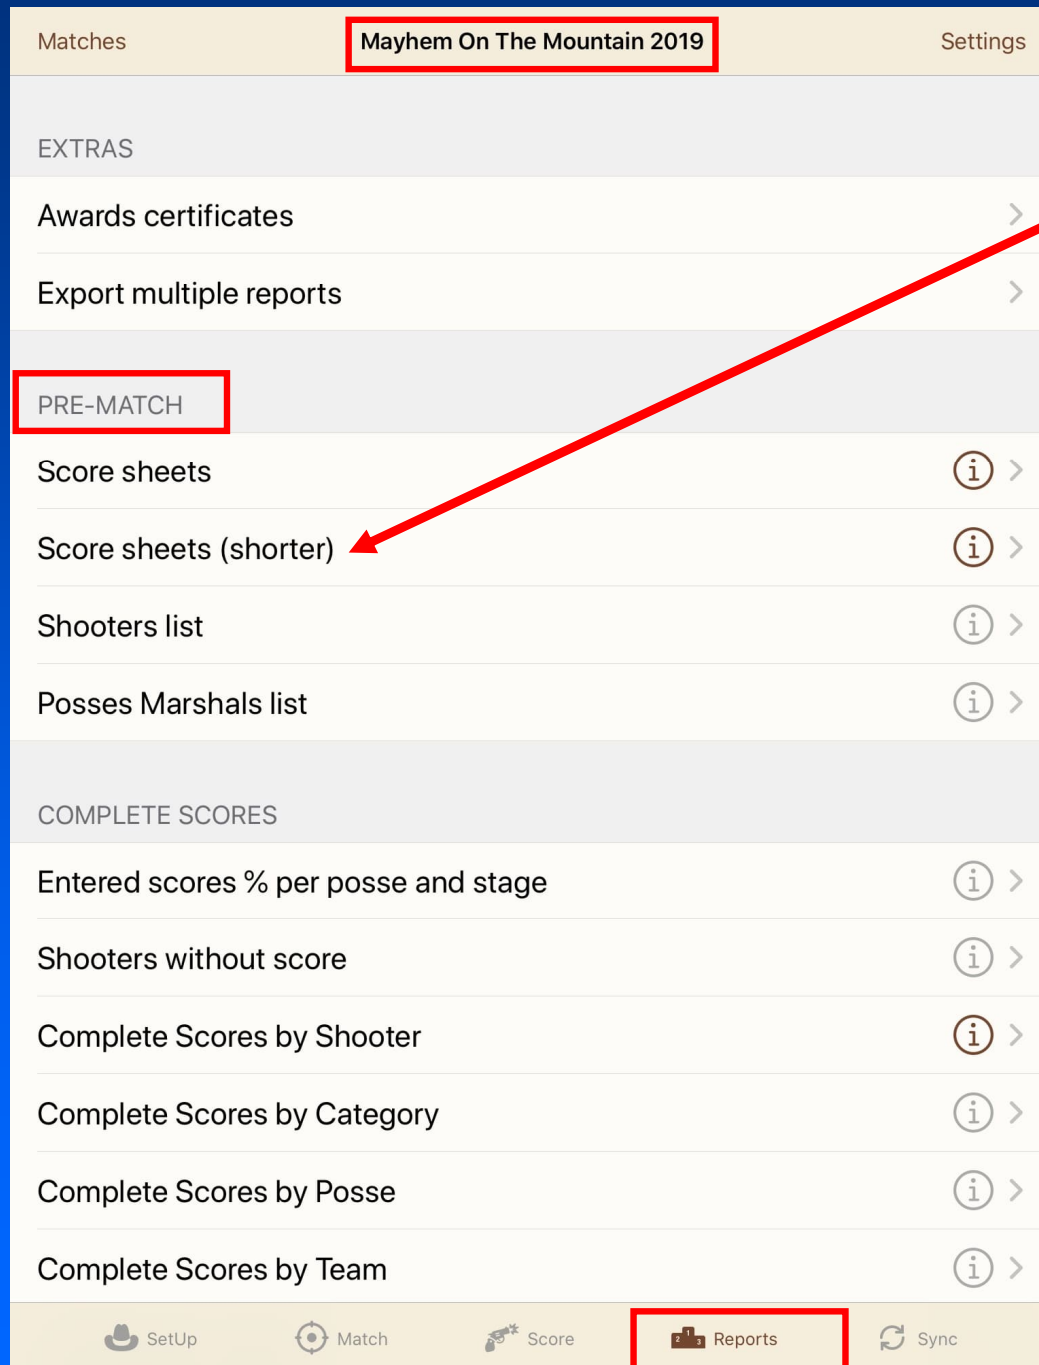

This is the Posse, Shooter list.  
(Change Font Size to 10.)

UPDATE!

This report is now printed with a page break between posses.

Handy for posting posse lists.

# Pre-Match Reports

After posses are determined, Score sheets can be printed to allow for hard copy scoring along with the scoring app.

Paper score sheets are often the “official” scores and should be checked with scores on devices for accuracy.

Mayhem On The Mountain 2019 (10/4/19 - 10/5/19): Score sheets (shorter)

Posse 1, Stage 1 - High Card

Alias	Cat	Raw time	Miss	Bonus	Proc.	MSV	SDQ	MDQ	SOG	Initial	Total time
Fired Up Fannie Sue	LWRA										
Jack High Homer	WRA										
Ozark Outlaw	CBR										
Roy Sackett	SSGF										

Generated by CAS Scoring iPad app version 1.21.5

1/33.1

## Score sheets (shorter)

Deletes Role and SASS No. columns  
Allows more room for scoring.

Font size changed to 9 prior to printing allows a little more room for entering scores.

Top margin changed to 1.50 to allow room for clipboard.

Shooters listed in alphabetical order not only makes them easy to locate for scoring but helps when checking with app later for accuracy before printing reports.

Space for shooter to initial score on each stage.
